

RETAIL ELECTRIC LTD — XERO Import Workbook (Q1–Q3)

Built from the Xero VAT Return exports ('Transactions by Tax Rate'). VAT scheme = STANDARD (Accrual).
Every figure ties to the Xero VAT Return boxes (Box 1 output VAT, Box 6 sales, Box 4/7 purchases):

Q1: Sales net 55,491.63 / VAT 11,098.32 (109 invoices) | Bills net 1,526.58 / VAT 290.97 (33 bills)

Q2: Sales net 46,242.64 / VAT 9,248.53 (80 invoices) | Bills net 1,639.78 / VAT 321.05 (34 bills)

Q3: Sales net 24,872.31 / VAT 4,974.48 (49 invoices) | Bills net 10,461.72 / VAT 2,092.35 (25 bills)

HOW TO IMPORT INTO XERO (each is a separate Xero import — NOT one universal file):

Sales invoices: Business ▶ Sales ▶ Invoices ▶ Import → use the Xero_..._Sales.csv for that quarter.

Bills: Business ▶ Bills to pay ▶ Import → use the Xero_..._Bills.csv for that quarter.

Contacts auto-create on import; the Contacts tab lists them if you want to import contacts first.

Chart of Accounts: the account codes used are on the Chart of Accounts tab — make sure they exist in

COLUMN FORMAT matches Xero's invoice import template. UnitAmount = Net (tax-exclusive); TaxAmount
Dates are dd/mm/yyyy. TaxType uses Xero UK names (20% (VAT on Income/Expenses), Zero Rated,
DueDate is set = InvoiceDate (change later if you use credit terms).

NOT INCLUDED (handle via Xero bank reconciliation, not invoice import):

Bank/cash movements & 'No VAT' items — wages, rent, rates, HMRC, bank fees, petty cash, transfers.

In Xero you import the BANK STATEMENT (CSV) and reconcile these; they are not sales/purchase invoices.

***** Q3 note: a few credit-sale CONTACT names are inconsistent in the Xero source (some show 'Sales' or customer's first name sits in the Reference, e.g. 'INV-0031 - 28 rubi'). Amounts/dates/accounts/VAT are tidy those contact names in Xero after import if needed. Q1 & Q2 customer names are clean and**

Q1 — Sales Invoices (Xero import)
