

BUY NOW EXPRESS LTD - Q1 (Mar-May 2013) - Sage 50 Import Workbook

Built from the BNE Audit Trail (Detailed) + VAT Return + booklet. STANDARD VAT scheme (Retail

RECONCILIATION - ties exactly to the VAT Return:

- Output VAT (SI) = 13,857.42 OK Box 1
- Input VAT (PI - PC) = 2,056.92 OK Box 4
- Net sales (SI) = 134,335.42 OK Box 6
- Net purchases (PI - PC) = 29,369.34 OK Box 7

WHAT TO IMPORT (data type = Audit Trail Transactions each time; tick 'First row contains headings'):

BNE_Purchases_import.csv - PI + PC (the live PC is a Bestway credit note, entered POSITIVE as type PC).

BNE_Sales_import.csv - SI (PayPoint commission + monthly 'Z' report sales to SAL001).

BNE_Bank_import.csv - BP + BR (PayPoint payments/receipts, wages, bank charges, capital, interest).

All amounts POSITIVE; the Type column carries direction (PI/PC/BP/BR). No negatives, no PI/PC swaps.

DO NOT IMPORT via CSV (do these in the Bank module - they allocate to invoices/accounts):

PP Supplier Payments, PR Purchase Refund, SR Customer Receipts, PA Payments on Account,

SA Sales receipts on account (SAL001 daily takings banked).

JD/JC VAT journals - do NOT import; Sage creates them automatically when you reconcile the VAT return.

***** 25 deleted / cancelled transactions were EXCLUDED (they net to zero) - do not re-add them.**

MULTI-LINE INVOICES: invoices split across nominals (e.g. Bestway 5001+5000) appear as separate rows sharing one invoice Ref. Sage imports each row as its own transaction - the supplier balance and VAT are identical, you just see 2 lines instead of 1 multi-line invoice. This is normal for CSV import.

PREREQUISITES before importing: create the Suppliers & Customers (next tabs) and rename nominals:

5000 Zero-rated purchases, 5001 Standard-rated purchases, 5002 Reduced-rated purchases,

4000 Zero-rated sales, 4001 Standard-rated sales, 4902 Commission received, 2103 PayPoint control.

Tax codes: T0 zero · T1 standard 20% · T2 exempt · T5 reduced 5% · T9 non-vatable/outside scope.
