

World Timeline, Resolved History vs Live Risk

Relative in-universe years, Z-A era set as Year 13 present-day anchor. Years-since is comput

Region	Game(s)	n-universe Yea
Kanto	Red / Blue / Yellow, FireRed / LeafGreen	0
Hoenn	Ruby / Sapphire / Emerald, ORAS	0
Johto	Gold / Silver / Crystal, HeartGold / SoulSilver	3
Sinnoh	Diamond / Pearl / Platinum, BDSP	6
Unova	Black / White, Black 2 / White 2	8
Kalos	X / Y	8
Alola	Sun / Moon, Ultra Sun / Ultra Moon	9
Galar	Sword / Shield	11
Paldea	Scarlet / Violet	12
Kalos (Z-A)	Pokemon Legends Z-A	13

ed live.

Crisis / Signature Event	Status Today
Team Rocket (Silph Co. takeover, Game Corner, Mt. Moon fossil theft)	Resolved
Team Aqua and Team Magma, Groudon and Kyogre awakened	Resolved, weather-legendary tail risk remains
Team Rocket reformation attempt, Radio Tower takeover	Resolved
Team Galactic, attempt to remake the universe via the lake trio	Resolved
Team Plasma, ideology of Pokemon liberation	Resolved
Team Flare, ultimate weapon threat	Resolved
Aether Foundation and Ultra Beasts, Ultra Wormholes	Resolved, standing Ultra Wormhole tail risk
Chairman Rose, the Darkest Day / Eternatus	Resolved
Area Zero expedition, Terastal phenomenon	Resolved, Area Zero remains a controlled frontier
Lumiose redevelopment era, present-day anchor	Present-day baseline

3	6.18	7
7	7.04	2

Cost of Living, Basket plus Housing x Regional Multiplier

Base item prices are canon, shown on screen in yen. Pokedollar = yen 1:1. Housing is not priced in canon, so it is modelled from a Japc multiplier. All figures directional.

Basket item	Base Price (P/Y)
Poke Ball (proxy for small hardware goods)	200
Potion (proxy for basic healthcare consumable)	300
Antidote (proxy for minor medical goods)	100
Full Restore (proxy for premium healthcare consumable)	3000
Soda Pop (proxy for a drink or snack)	300
Berry, market average (modelled feed and food staple)	250
Cafe meal (modelled from regional curry and cafe pricing)	500
Boutique clothing item (modelled from Kalos boutique pricing)	3000
Basket Total	7650

Housing (modelled), Johto baseline

Housing type	Base Monthly (P/Y)	Regional Multiplier
In-town apartment	55000	1
Route 39 smallholding	80000	1

Regional multiplier, basis, and adjusted basket

Region	Real-world basis	Multiplier
Kanto	Greater Tokyo / Kanto	1.15
Johto	Kansai (Osaka, Kyoto, Kobe)	1
Hoenn	Kyushu, subtropical	0.95
Sinnoh	Hokkaido, rural north	0.9
Unova	New York City	1.3
Kalos	France / Paris	1.25
Alola	Hawaii, island import costs	1.2
Galar	United Kingdom	1.1
Paldea	Iberian peninsula / Spain	1

These city rent baseline scaled by the same regional

Adj. Monthly (P/Y)	Adj. Annual (P/Y)
55,000	660,000
80,000	960,000

Pet Ownership Cost Model, Common Lifestyle-Matched Pokemon

Annual feed computed live from weekly feed. Year 1 total adds one-off acquisition. These are supernatural creatures, so ec

Pokemon	Acquisition (P/Y)	Weekly Feed (P/Y)	Annual Feed (P/Y)	Year 1 Total (P/Y)
Marill	4000	350	18,200	22,200
Sentret	3000	300	15,600	18,600
Hoothoot	3500	320	16,640	20,140
Mareep	6000	450	23,400	29,400
Growlithe	7000	420	21,840	28,840
Galarian Ponyta	9000	500	26,000	35,000

Cheapest Year 1	18,600
Dearest Year 1	35,000
Average Year 1	25,697

ach carries a special utility that a real pet does not.

Special utility and lifestyle fit
Water sense and natural buoyancy, a calm swimmer that suits a port or fishing household
Constant lookout instinct, stands watch on its tail, a low-cost early-warning pet for a quiet home
Keeps precise time and stays alert at night, suits a shift worker or a late-hours trade
Static wool with real trade value on Routes 38 and 39, a pet that partly pays for itself
Loyal fire dog, warmth in a cold home and a genuine guard, favoured by remote and rural owners
A gentle horse whose touch soothes and helps heal minor hurt, suited to carers and heavy manual trades

Business Options, Track A and Track B, Weighted

Same weighted-matrix pattern as the regional scoring. Track A is general consumer, Track B is Pokemon related.

Weight	25%	20%	20%	15%
Option	Market Size	Low Competition	Low Setup Cost	Registration Ease
[A] Dockside cafe and import retail	7	6	6	7
[A] General trade brokerage	6	7	5	6
[A] Ferry and tourism services shop	6	8	7	7
[B] Pet grooming and boarding service	8	7	6	6
[B] Pet supply and feed store	7	6	7	7
[B] Non-battling wellness clinic	5	4	5	5

20%	100%	
Location Fit	Weighted	Rank
9	7.00	3
8	6.40	5
8	7.15	2
9	7.30	1
8	7.00	3
6	5.00	6

Ansoff Growth Options, Feasibility x Reward

Priority score is feasibility multiplied by reward, computed live.

Ansoff Option	Feasibility	Reward
Market penetration, more customers within Olivine City	8	6
Market development, expand to Cianwood City and Goldenrod City	6	7
Product development, add pet transport and travel prep services	7	6
Diversification, unrelated new venture	4	5

Top priority (max score)

Feasibility x Reward

Risk Register, Probability x Impact Scoring

Score maps Low/Medium/High to 1/2/3 on each axis, multiplied live.

Risk	Probability	Impact	Score
Ultra Wormhole incursion with regional spillover	Low	High	3
Weather-legendary reawakening (Groudon and Kyogre style event)	Low	High	3
Team Rocket nostalgia relapse or copycat crime	Low	Low	1
Seasonal demand swing around Whirl Cup travel	Medium	Medium	4
Feed supply shock on Route 39 farms	Low	Medium	2

Mitigation
Site the business away from known Alola-adjacent shipping routes, hold Pokemon Center emergency contacts on file
Not applicable to Johto directly, monitor Hoenn news for supply chain effects only
Standard insurance, no special provision given 10 year resolved status
Run the cafe as a counter-seasonal second revenue line to smooth quiet months
Contract two farms rather than one, hold four weeks of dry feed buffer

Chart Feed Data (mirrors the scored tabs)

Region	Weighted Total	Rural warmth	Low battle-pressure
Kanto	6.82	4	6
Johto	7.36	8	7
Hoenn	6.76	7	6
Sinnoh	6.54	7	6
Unova	5.86	3	5
Kalos	6	7	4
