

Doce Perdição

An Iberian Café

Portuguese Pastries. Spanish Coffee. One Iberian Soul.

The Gap

A £6.8 billion market with no Iberian café concept

The UK coffee shop market turned over £6.8bn in 2024/25. Over 12,000 branded outlets. Growth at 5.5% per year.

But almost every coffee shop serves the same drinks, from the same machines, in the same interiors. The product is interchangeable.

What is missing is genuine cultural difference. No Portuguese espresso. No Spanish Café Bombón. No fresh Pastel de Nata. Not in commuter belt towns.

That gap is the opportunity.

The Concept

Two Iberian food cultures under one roof

Doce Perdição is an Iberian café combining Portuguese and Spanish food and coffee culture in one space. Portuguese pastries from a real family bakery. Spanish coffee preparations. An atmosphere that feels like Lisbon or Seville, not a British high street.

Portuguese Pastries

Authentic pastries from the Doce Perdição bakery. Pastéis de Nata, Bolas de Berlim, Queijadas, Travesseiros. Made by Portuguese bakers, delivered fresh daily.

Spanish Coffee

Iberian coffee styles you cannot get elsewhere. Bica, Galão, Cortado, Café Bombón, Carajillo. Different roasts, different preparations, different experience.

Iberian Atmosphere

Azulejo tile walls. Warm terracotta tones. Natural wood. Copper coffee equipment. Fado and flamenco guitar at background volume. Mediterranean warmth.

The Partnership

Family bakery meets Iberian café

Doce Perdição is a real Portuguese bakery. Family owned. Years of experience producing authentic Portuguese pastries and sweets.

The bakery supplies all Portuguese items at wholesale prices (47% COGS). The café handles coffee, atmosphere, and Spanish food items in house.

This removes two major startup risks. No need to hire pastry chefs. No learning curve on product quality. The bakery already makes these products well.

The bakery gets a reliable retail channel. The café gets products it could not make itself. Both sides benefit.

Market Opportunity

Large market, boring competition

UK coffee shop market: £6.8bn, growing 5.5% YoY. Over 12,000 branded outlets. Coffee culture is firmly established.

Portuguese cafés have proved demand in London. Café de Nata grew from 1 to 8 locations in 10 years. Lisboa Patisserie is a decades old institution. But none combine Portuguese and Spanish. None operate outside London.

Epsom and Ewell: 83,000 population, highest density in Surrey, 80% employment rate. No Iberian café concept.
